

NEWS RELEASE

ePower Metals Announces U.S. Listing on OTCQB Venture Marketplace and DTC Eligibility

Vancouver, British Columbia, November 20th, 2018 – **ePower Metals Inc.** (the “Company” or “ePower Metals”) (TSX.V: EPWR) (OTCQB: EPWMF) announces that the Company has been approved by the OTC Markets Group for a listing of its common shares on the OTCQB Venture Market under the symbol “EPWMF”. The Company’s common shares will continue to trade on the TSX Venture Exchange under the symbol “EPWR”. In addition the Company also announces that its common shares have been made eligible for book-entry delivery and depository services with The Depository Trust Company (the “DTC”) to facilitate electronic settlement of transfers of its common shares in the United States.

DTC eligibility is expected to simplify the process of trading and enhance liquidity of the Company’s common shares on the OTCQB. The DTC is a subsidiary of the Depository Trust & Clearing Corporation; a U.S. company that manages the electronic clearing and settlement of publicly traded companies. Securities that are eligible to be electronically cleared and settled through DTC are considered to be “DTC eligible”.

The OTCQB Venture is the premier marketplace for entrepreneurial and development stage US and international companies that are committed to providing a high-quality trading and information experience for their US investors. To be eligible, companies must meet a minimum bid price test, be current in their financial reporting, and have undergone an annual verification and management certification process. These standards provide a strong baseline of transparency, as well as the technology and regulation to improve the information and trading experience for investors.

US investors can find current financial disclosure and Real-Time Level 2 quotes for the Company at <https://www.otcm Markets.com/stock/EPWMF/quote>.

About ePower Metals

ePower Metals Inc. is committed to creating significant shareholder value by advancing a high-quality portfolio of Metals for the Future - cobalt, copper and manganese. The Company believes these metals are undervalued, and that the Company is strategically positioned to have significant potential to provide future supply to the growing rechargeable battery industry. With cobalt projects in Idaho and Suriname, ePower is well placed to develop significant cobalt resources in in the face of tightly constrained cobalt market supply.
